

Jurisdictional Responses to Transit Study

- Prescott – Limited fixed-route bus system that would serve Prescott, Prescott Valley & Chino Valley
- Prescott Valley – an internal (town) transit system with an interest in transit opportunities on a regional basis through participation in CYMPO
- Yavapai County – supports a full-service fixed route system that includes all four communities
- Chino Valley (CV) noted that ‘sufficient ridership’ needed to be determined before the town could financially support a service; however, CV supports an enhanced voucher system and the town is willing to support an election measure to ask the voters about establishing a transit authority
- Dewey-Humboldt supports continuation of the voucher system that riders can use to ‘tie into’ any developed regional system
